

# Bulletin: Product End-of-Life (EOL)

## Avocent® SwitchView™ Secure Desktop KVM Switches

Effective Date: December 31, 2015

**Models:** SC420 / SC440 / SC540 / SC4UAD / SC140 / Cables

Effective December 31, 2015, Emerson Network Power will end the sale of the listed Avocent SwitchView Secure Desktop KVMs. After December 31, 2015 the listed SKUs will be at End-of-Sale (EOS) and they will no longer be available for purchase from Emerson Network Power. After the EOS effective date, all orders for the listed SKUs should be transitioned to the closest equivalent SC800 or SC900 SKU.

EOL Announcement – September 2015

- End-of-Sale – December 31, 2015 or while supplies last
  - Last day for old product orders
  - Last day for extended warranty sales
- Last Shipment Date – March 31, 2015
- End of Life – March 31, 2020 (or last day of extended warranty)

Things to note about the new Emerson Cybex SC800 and SC900 Series Secure Desktop KVM Switches

- Outstanding Security - Designed to meet the specifications of NIAP Protection Profile for Peripheral Switching Devices, version 3.0
- Dedicated Peripheral Port permits a secure connection to external USB devices, including CAC smart card readers, fingerprint readers and face recognition devices
- Advanced Video Support: Support for DVI-I, HDMI 1.4 and DP1.2 in single and dual head models supporting high resolutions up to UHD 4K
- New cables are released to support the Emerson Cybex SC800 and SC900 Series Secure Desktop KVM Switches and can be found on the Emerson Cybex SC800 and SC900 Product Pages.

# Bulletin: Product End-of-Life (EOL)

## Avocent® LongView™ Extender Solutions

Effective Date: March 31, 2016

Models: LVIPDH / LVIPHR / LV430 / LV830 / LV1000P / LV1000U / LV1000R / Cables and Accessories

Effective March 31, 2016, Emerson Network Power will end distribution of the listed Avocent LongView Extender Solutions. After March 31, 2016 the listed SKUs will be at End-of-Sale (EOS) and they will no longer be available for purchase from Emerson Network Power. After the EOS effective date, all orders for the listed SKUs should be transitioned to the closest equivalent LV3000, LV4000 or HMX 5000 SKU.

### EOL Announcement – December 2015

- End-of-Sale – March 31, 2016
  - Last day for old product orders
  - Last day for extended warranty sales
- Last Shipment Date – June 30, 2016
- End of Life – December 31, 2020 (or last day of extended warranty)

Things to note about the new Avocent High Performance Extension Solutions

The **Avocent LV3000** family of extension solutions provides outstanding VGA resolutions up to 1920 x 1200 for a distance of 300 meters. The LV3000 portfolio also provides:

- **Plug and Play** - The LV 3000 series extenders are delivered in a zero configuration state so you can plug them in and start working immediately. There's no need for additional drivers or software
- **USB Support** - The receiver unit has a built in 4 port USB hub to enable a complete desktop to be located remotely, including a keyboard, monitor, mouse, disk drive, flash memory stick, webcam, and any other device that would normally be plugged into your computer's USB port.

The **Avocent LV4000** family of extension solutions provides outstanding DVI-D resolutions up to 1920 x 1200 @60Hz for distances of up to 50 meters. The LV4000 portfolio also provides:

- **USB Powered Transmitter** - The transmitter is powered via its USB port to reduce the need for external power supplies. There is an option for an external power supply if the USB port has insufficient power.
- **Single or Dual Monitor Digital Video** - Supports DVI-D (HDMI with adapter) video on single or dual screens, with resolutions up to 1920 x 1200 @ 60Hz.
- **USB Support** - USB 2.0 support for any USB human interface device from mice and keyboards to graphics tablets, touchscreens, jog shuttles, joysticks, 3D explorers and mass storage devices. Full speed (12Mbps) isochronous devices such as headsets are also supported.

The **Avocent HMX Digital High Performance KVM** system provides pixel perfect extension over an IP network. The HMX system can also be configured as a switching solution providing remote, real-time access across an organization.
